Frequently Asked Questions

How can I see if my fish score is submitted?

- When in the record catch screen, in the top left of the screen is a **LOG** button. Press this button. The list of your logged fish will show. Under each log, it will show if the data & image has been received. For example:
- If it reads **green RECEIVED**, it means the data AND the image have been received on the server.
- If it reads **red NOT SENT** it means neither the data nor images has been sent and therefore not received.
- If it reads **orange IMAGE NOT SENT** it means the data has been received (fisher, length, type etc.) but the images have not been received.
- If you have either the red or orange, you will need to press the **SUBMIT ALL** button located on the top right of the screen so it re-uploads. Please keep checking until all your logs show green.

Where can I find my scorecard?

- If you are wanting to check your tally of scores, click the **INFORMATION** tab and then you have the scorecard tabs to click.
- If you see **ACCEPTED IMAGE RECEIVED** next to the entry, it is confirmation that the fish has been accepted and therefore your score for that fish is on the server i.e., no discrepancies in your scoring.
- If you see **SUBMITTED IMAGE RECEIVED**, it means the data and image have been received but the official score checker is yet to verify and accept your entry. This simply means the data is still to be checked.
- If you see **SUBMITTED IMAGE NOT RECEIVED**, it means the data has been received but not the image. Go to the **LOG** page in the previous question and follow the resubmission steps.
- If a submission is missing, it's either been rejected (the score does not count due to breach of rules) or nothing at all has been received. If your submission is missing, go back to your log (see the previous question) and check your data has been uploaded.
- If it is showing as **green RECEIVED** and the submission is not in the **CHECK MY SCORE**, your fish has been rejected.

NOTE

If you have any issue with the above, or if you submit an incorrect size or species or assign it to an incorrect angler, please do not resubmit your data or fish. Please contact the Track My Fish team member asap.
